Sorry! Something went wrong Is your network connection unstable or browser outdated? Who better to fight back the darkness of the world than the one responsible for most of it? Daylen, once known as the Great Bastard, the Scourge of Nations, Dayless the Conqueror, has lived in hiding since his presumed death. Burdened by age and tremendous guilt, he thinks his life is coming to an end. Unbeknownst to him he's about to embark on a journey towards redemption where his ruthless abilities might save the world. Many battles await with friends to be made and a past filled with countless crimes to confront, all the while trying to keep his true identity a secret. Indeed, it might be too much if not for the fabled power awaiting him. Everfall is a world of perpetual day where the continents float in an endless sky. If one jumps from the continent they will fall for many hours before returning to the same place from which they fell. Skyships rule the air powered by shining sunstone and industrial darkstone. A legendary order of knights bears mystical powers which they use to hunt out the dreaded shade, monsters that regular people turn into if trapped in darkness for the length of a fall. It is a world of enchanted swords, merciless monsters, mystical knights, and hard magic, filled with tales of wonder and adventure. As well as being a passionate writer Shad is also a very popular internet personality. His YouTube channel, Shadiversity, has over 650,000 subscribers as of July 2019, where he examines and celebrates fantasy and medieval subjects as well as the occasional instructive video on creative writing. Shad grew up in the country of Victoria Australia where he was free to make wooden swords and play in imaginary fantasy worlds to his heart's content. This love of fantasy and swords has been with him his whole life and he loves bringing the worlds of his imagination into greater reality through illustration, playing tabletop roleplaying games, and writing. Shad decided to be a novelist in 2007 and began a dedicated endeavour to learn how to be one to the best of his ability, participating in top creative writing courses and learning from some of the most successful fantasy writers in the world. Over the course of twelve years Shad married, had four children, launched a highly successful YouTube career and wrote the equivalent of nine novels. Most of these books were preparatory works to give shad the practice and ability to write at a professional level, the last book being the one he set out to launch his writing career with; *Chronicles of Everfall*, *Shadow of the Conqueror*.
